

## Lab report about:

---

What could you change? - Independent Variable		
What could you measure and how? - Dependent Variable		
What:	What:	What:
How:	How:	How:
<b>What is your prediction?</b> As the _____ is changed the _____ will _____.		
What will you keep the same so that your results are accurate? - Control Variables.

**Method:**

**Hypothesis (prediction):**

**Hazard**

**Risk**

**Precaution**

**AFTER COMPLETION OF INVESTIGATION**

**What did you discover?**

**Did it match your prediction?**

**Bright Sparks: How could you link the results of your investigation to your scientific knowledge?**

Results tables and any relevant graphs can be drawn using the grid guide below:
